# NTT DATA

## Educational Partner Pursuing Excellence

NTT DATA Romania is a part of the NTT DATA Corporation, a trusted global innovator of IT and business services headquartered in Tokyo, with over 130.000 colleagues and presence in 50 countries worldwide. Our main focus is to help clients transform through consulting, industry solutions, business process services, digital innovation and managed services.

For over 22 years, NTT DATA Romania is continuously involved in a successful partnership with all universities in Romania. From the beginning, we understood the importance of contributing to the student's professional development, as they represent the future of our company. Within our company, students have the opportunity to attend academies and internships, having access to modern technological and business-focused competencies. This completes the students' theoretical knowledge acquired during their academic studies.

# VISMA

## Educational Partner Investing in Competence

Visma is a leading provider of mission-critical business software for a more efficient and resilient society. By simplifying and automating the work of companies and organizations of all sizes, we improve people's everyday lives.

What does life at Visma look like?

- We love that you bring your ideas to the table: You will be part of a culture that favors experiments and value initiative, so it's easy to get your ideas heard.
- We invest in your competence: When you step into Visma, opportunities from A-Z awaits. You will be met by engaged leaders that care for and support you, and take part in competence sharing and learning networks across Visma within.
- We are a team: Team spirit is key for us to deliver on our promises to people and society, but most importantly; to form a culture where people support and care for each other as much as we have tons of fun together.

# TNT Computers

## Educational Partner Enhancing Innovation

TNT Computers was founded in Sibiu, in 2001 on innovative solutions and digital transformation, providing top-of-the-line, intuitive IT solutions that are constantly being developed to contribute to the performance of public and private sectors. Nowadays, the company represents a trust with 5 independent businesses which aim at innovating and developing smart technologies in different areas. (CRM, ERP, e-governance, IoT, electronic solutions development, smart city devices and solutions).

Through this early career support project, we intend to offer students the possibility of becoming not only our colleagues but business partners. We are looking for great ideas to be put into a START-UP project. If you have a proposal, come meet us and join our growing team! We might not be "The Shark Tank" but we want to support great ideas. We offer opportunities like internships, professional growth, and innovation. Come JOIN US!
